PARTNERSHIP

Success Stories

Unlike most collaborations, collective impact initiatives involve a centralized infrastructure, a dedicated staff, and a structured process that leads to a common agenda, shared measurement, continuous communication, and mutually reinforcing activities among all participants.

- **Arizona: Resilience in a New Key**
- **Cincinnati: Strive to improve education**
- **New York State Juvenile Justice Statewide Reform**

AAPP's First 1,000 Days of Life Campaign for Alaska's Children

Collective Impact

- Annual AAPP Pediatrics Symposium—
2013
 - Various community members, pediatricians, public health officials, nurses, etc came together to:
 - Define 4 areas that AAPP can concentrate on mutually reinforcing activities to ensure children reach their full potential
 - Goal is to reduce ACEs and toxic stress in Alaska kids

First 1,000 Days of Life Campaign

Workgroups

Increase exclusive breastfeeding rates

increase immunization rates

increase access to a primary care provider within the medical home

decrease child abuse & neglect

AAPP Initiatives: Triple P

Triple P—Positive Parenting Program

Gives parents practical strategies to:

- Build healthy family relationships

- Manage their children's behavior

- Prevent developmental problems

Delivered in the Primary Care setting to target specific problem issue or behavior

WSIPP benefit to cost ratio = \$8.74

www.triplep.net

AAPP Initiatives

HelpMeGrow

Connects at-risk children with the services they need

Training for primary care offices to provide effective developmental screening to facilitate early detection

Builds collaboration across sectors to improve access

Identifies gaps and barriers to access systems

Four Core Components

Child health care provider outreach

Community outreach

Centralized telephone access point

Collection of data
